HACK TO FUTURE 2.0

HackToFuture is a 36 hour long **Offline** hackathon, running from **19-21 February 2024** conducted by The sceptix club and SJEC IUCEE Student Chapter of St Joseph Engineering College in partnership with EGDK India Pvt. Ltd.

There are two themes for this hackathon:
- A Company Theme (running 36 hours).
- Open Theme (running 24 hours).

Eligibility
- Company Theme: Students of BE, B. Tech, BCA, MCA and MBA
- Open Theme: BE students of first and second semester.

Registration
- The team leader must register on behalf of the team on https://hacktofuture.in.
- Registration is completely FREE.

Prizes
- Company Theme: Rs. 40,000 for the first place (per problem statement) and Rs. 20,000 for the first runner-up (per problem statement).
- Open Theme: Rs. 15,000 for best solution, and Rs. 10,000 for the first-runner up.

Company Theme
- Teams participating must pick any two of their preferred problem statements from the ones given in the abstract template and write a submission for each of the two chosen.
- Teams are requested to make a copy of the Google Document and edit it on Google Docs itself. This is necessary as the link to the same edited document must be presented during registration.
- Teams will be shortlisted on the basis of both the abstracts and one of the two (of their preferred) problem statements will be randomly allotted to them leading up to the hackathon.
- The shortlisted teams then work on the allotted proposed solution for 36-hours starting from 9 PM, 19 February 2024 to 9 AM, 21 February 2024.
- Top **30 teams** (10 teams for each problem statement) will be shortlisted.

HACK TO FUTURE 2.0

- Your team of 3 - 4 can comprise of inter-departmental and inter-semester students of the same college.
- Students participating in an existing team cannot join another team.

Open Theme

- Teams participating must build a solution under the topic of "Social Innovation".
- An abstract of the solution must be submitted during the registration.
- Top 10 teams will be shortlisted based on the quality of the abstract.
- The shortlisted teams then work on their proposed solution for 24 hours starting from 9 AM, 20 February 2024 to 9 AM, 21 February 2024.
- Students participating in an existing team cannot join another team.
- Your team of 2-3 can comprise of inter-departmental students of 1st and 2nd semester of the same college

Mode Of The Event

- HackToFuture in an **offline** hackathon conducted in the campus of St. Joseph Engineering College Mangalore.
- Shortlisted teams are required to be present in the venue to participate.
- Accommodation and food will be provided by SJEC for the shortlisted teams.

Projects

- The hackathon solution must be tracked on the Git VCS and hosted on GitHub.
- Prior work on the solution (with code especially) is prohibited.
